21st December 2025

TIME

11.30 am onward

VENUE

Hotel Stadel Kolkata

WELCOME NOTE

Dear Friends,

I am happy to announce that our Medical Rehabilitation Center specialized in the rehabilitation of rheumatological and Neuro-orthopaedic patients is celebrating its 25th anniversary this year. It gives me immense pleasure to see the growth and success of our center over the past two and a half decades.

To commemorate this milestone, we are organising a special academic meet featuring renowned doctors from all over India. The event will focus on the latest developments and advancements in the field of rehabilitation, rheumatology & neuro orthopaedic challenges.

This event is our way of thanking all of you for your continued support and trust in our service unit. We are grateful for the opportunity to serve our community by upgrading the scientific knowledge of doctors thus help improve the health and well-being of our patients.

Together, let us continue to strive for excellence and work towards a healthier, happier future.

Warm regards,

Dr. M. M. Ghatak

MBBS, MD Cal
Founder Incharge & Chief Consultant
- Medical Rehabilitation Center

ABOUT MRC

The **Medical Rehabilitation Center (MRC)** in Kolkata, founded by Dr. M. M. Ghatak, pioneered advanced rehabilitation for neuro-orthopaedic and rheumatology patients in India. At a time when rehabilitation was mainly for addiction treatment, Dr. Ghatak expanded its scope to include patients with neurological, spinal, and developmental conditions. Despite early challenges, MRC grew into a successful center offering evidence-based rehabilitation that helped many bedridden patients regain mobility and independence. Over the past 25 years, it has become a leading non-government institute in India bringing hope and healing to countless lives.

ABOUT THE SUMMIT

An assembly of Doctors & Medical personals from across India

The meet will include nearly 150 specialist doctors from different streams including PMR, Rheumatology, Orthopedics, Neurosurgery and Neurology. Some PGTs and general practitioners are also expected.

The entire conference will cover Updated Rheumatology, neuroscience and surgical sessions along with evidence based issues of multi-disciplinary rehab integration in all such cases.

One oration from MRC will describe the journey and rehab practice details in last 25 years of MRC. There will be multi-speciality panel discussion in the angle of Rehab also.

A good number of National faculties from PMR, Orthopedics and Rheumatology will join and share their views. The entire program will be a vibrant scientific feast in an ambient and comfortable environment.

Doctors across the Country will join to share their views on the Modern Robotic rehabilitation therapy which offers hope to patients of all ages suffering from neurological impairment due to stroke, injury or disease (like Parkinson's). Using advanced robotics.
